

VANDERBILT SCHOOL HOLDS ANNUAL PICNIC

Strickler Park Mecca for Members of the Christian Church Wednesday.

OTHER NEWS OF THE DAY

Special to The Courier.

VANDERBILT, Aug. 23.—The annual Sunday school picnic of the Vanderbilt Christian Church was held yesterday at the Strickler Recreation Park. The picnicers left at 9:30 o'clock in automobiles. The morning was spent in playing horseshoes and baseball. The picnic lunch was served between 12 and 12:30 o'clock. At 1:30 the field events began which included the following:

Fifty-yard dash, 15 years and under—A box of hair brushes, won by Lindsay Blair; second, Carl Mulac.

Hundred-yard dash, 15 years and under—A watch chain, won by Robert Boyer; second, Clayton Goe.

Wheelbarrow race—for all ages—Nesbitt, team of Robert and Lindsay Blair.

Sack race, 11 years and under—A box of pencils, won by James Wellington; second, Oran Colbert.

Sack race, over 12 years—Watermelon, won by Lindsay Blair.

Three-legged race for all—Pair of silk ties, won by Clayton Goe and Harold Shallenberger.

Crab race, 10 years and under—Knife, won by Carl Mulac; second, Clarence Blackburn.

Pistol race, 15 years and under—Boys' belt, won by Carl Mulac; second, Clarence Boyer.

Fifty-yard dash for girls, 15 years and under—Ladies' belt, won by Miss Grace Fuller; second, Catherine Shallenberger.

Fifty-yard dash, 15 years and over—Box of candy, Mrs. Ruth Colbert; second, Mrs. Robert Lint.

Needle-threading contest, 15 years and over—Writing paper, won by Mrs. Joseph Mulac.

Candle race, 15 years and under—Bottle of perfume, won by Catherine Shallenberger; second, Mary Ellen Ringer.

Shoe scramble, all ages—Barrel of sugar, won by Mrs. B. J. Newmyer; second, Mrs. Robert Lint.

Ladies' ball throwing contest—Box of Bonobilla, won by Mrs. Ora Connor; second, Mrs. Joseph Mulac.

Spout ladies' race—Mrs. E. C. Lint; second, Mrs. B. J. Newmyer. Prize, a dozen of oranges.

The picnicers returned later in the evening, all enjoying the day immensely.

Oil Company Property Sold.

The property of the Gas & Oil Investors Company at Lower Tyrone township was sold at a courthouse sale last Monday for judgment, brought by C. J. Miller against the corporation. The property was sold for cost to J. G. Gorman of McKeesport, who expects to start operations with the gas well in a few weeks. Constable C. P. Meach of Dawson made the sale.

Klu Klux Klan burned a cross last evening on the slag dump. Well above the level of the town, the cross was distinguished for miles around.

Ball Team and Diva Playing.

The Kildale Independents are scheduled to meet the railroad nine of Dickerson Run this evening at 5 o'clock on the Dickerson Run grounds. This will be the first meeting between the two outfits. At the same time, the Diva Independents will clash with the crack Star Junction nine at Star Junction. The game will be called at 6 o'clock. "Hats" Durbin is slated to twirl this evening for the Young Valley nine.

D. of A. Corn Roast.

Friday, September 5, will close the first year of the local council of the Daughters of America. A corn roast will be held at the Strickler Recreation Park on Friday evening, the fifth, in celebrating the event. A transportation committee composed of G. A. Danner and Thomas Lynn was named last evening at a meeting of the council. Miss Oruce Moore, Mrs. Freda Lynn and Miss Anna Ringer were named on the social committee. An invitation is extended to the Connelville council to attend the celebration.

Brownstown High Friday.

The Brownstown Independents are scheduled to clash with the Diva Independents on Friday at the Dickerson Run Y. M. C. A. grounds. The hurling assignment will in all probability go to Kere Shallenberger, who may be opposed by Collins on the mound for the visitors. The game will begin at 5 o'clock.

Divas and Scrubs Play Tie.

Bill Koffler's scrubs also held the powerful Diva machine to a 3 to 3 tie last evening at the Dickerson Run Y. M. C. A. grounds in a five-inning combat. The game was a hard-fought affair as the strong Fayette City Independents were to play but the Fayette City nine forfeited by failing to appear. The game was interesting throughout and was witnessed by a large crowd of fans. Fast fielding marked the game. The scrubs scored thrice in the first frame while the variety outfit collected two in the initial round and sent another in the following inning.

The line-up for the Diva nine was as follows: Steve Sohange, catcher.

Drink More Water

The Simple Facts About Electric Refrigeration

Kelvinator electric refrigeration is used in thousands of homes. It fits right into the ice compartment of the refrigerator you now have. It is entirely automatic. It supplies dry, even cold, keeping food at the same temperature all the time. It freezes cubes of ice for table use. In its ice trays, desserts and salads are frozen. Kelvinator for better refrigeration saves food and eliminates ice bills. Its economy, cleanliness and convenience make enthusiastic owners. Talk with them. — Let us send you literature, or, better still, come to our showrooms, see Kelvinator demonstrated, and learn the simple facts about it.

School Board Meets.

Following a meeting of the school board last evening it was made known that "no unvaccinated pupils will be permitted to go to school." Pupils under six who will become of age before January 1 will be permitted to enter school in September but if their birthdays fall after January 1 they will have to wait until January 1. The school corps for the year is completed and will be headed by A. M. Snyder.

Miss Mary Zeta will occupy room No. 1, Miss Hazel Stoner in room No. 2, Miss Hazel Cleland in room No. 3, Miss Alvinia Snyder in room No. 4, and Miss Darrel in room No. 5.

Personal Mention.

Dr. and Mrs. L. J. Myers of Cleveland, Ohio, are visiting with the latter's parents, Mr. and Mrs. S. F. McBarney.

Andrew, John and Louis Mongolux of Donora are visiting with friends and relatives for a few days. Harry Kooser went to Pittsburg today to transact business.

Miss Phoebe Strickler returned from Greene county Tuesday evening where she spent a week visiting with friends and relatives.

Dawson

DAWSON, Aug. 23.—Dawson Driving Park has been the scene of several picnics and reunions the past few weeks. Thursday August 23 there will be a reunion at the park of all pupils and teachers, who have ever attended or taught at the Riverside school house, below Dickerson Run. This school house was built in 1890, and every pupil who ever attended there and all instructors are invited to attend this reunion at the driving park Thursday and renew old acquaintances.

The Boys' Club of the Presbyterian Church held a lawn fete on the church lawn Wednesday evening. A large crowd attended.

Mrs. George Gruen and children are visiting relatives in Homestead.

Mrs. William Cossel was a Pittsburg visitor Monday.

James Ridgway of McKees Rocks was calling on friends here Monday.

Mr. and Mrs. William Landymore and daughter, Jessie, were Pittsburg callers Monday.

Mrs. Amelia Hillman of Oakland, Pittsburg is visiting her sister, Mrs. G. B. McGinnis.

The house of Kent Collins in Railroad street is undergoing a number of improvements.

Mr. and Mrs. Donald Haas of New Castle are visiting at the home of the former's parents, Mr. and Mrs. Otto Haas.

Byron Cunningham of Lower Tyrone township was in town Tuesday.

Stanley Mong, John Luckey, Jacob Koffer and Frank Black are home from a fishing trip to Bedford county. They report fishing poor on account of the many rains the past week.

Carrie Haas and family motored to Washington, Pa. yesterday to visit the former's son, Raymond.

J. C. McGill and sons, Donald, William and J. C. Jr., were Pittsburg visitors Monday.

The Dawson horse, "Big George," will race today at Washington, Pa.

Mrs. William Haas of Dawson and Mrs. Leo Schriver of Altoona left today for Marshalltown, Iowa, where they will spend the next few weeks.

Transporting Coal By Pipes Like Gas

Professor George Guoss, of the University of Toronto, told the British Association for the Advancement of Science that eventually we would circulate powdered coal through pipes to domestic furnaces. He declared that better temperature control and greater economy would result.

"The idea is not by any means wild," declares the Coal Age. "Gas is not a sufficiently dense fuel for us to get satisfactory results from its piping, even under high pressure. Coal could be circulated as dust under a lower pressure than has been proposed for gas and even though it is mixed with air would deliver many more thermal units than an equal volume of gas. Of course, mixtures of coal dust and air in a pipe might be dangerous when a flame is at the burner, but so far no danger has been experienced, probably owing to the small area of the orifice and the hazard may be as remote as the passing of flame back through gas pipes, through the presence of air in the case of pulverized coal justifies a little caution in adopting such a plan, which might introduce danger if a pipe were broken."

If Professor Guoss' suggestion is any more than a mere day dream it would seem advisable that the operators test its possibilities. What a wonderful opportunity for the proposed Coal Institute!

Production Gain Was Less Than Had Been Indicated During the Preceding Week

Merchants Reversed Their Order and Registered a Decrease.

NET GAIN WAS 860 TONS

H. C. Frick Coke Company Breaks Custom of Blowing Out Ovens Followed Since Last April by Plugging up at Hecla No. 3; Only Change.

(From The Weekly Courier.) Because of the recurrence of the fluctuation which has characterized the production of coke by the merchant plants for several weeks past—by which there has been an increase one week followed by a decrease the next—the gain last week was materially less than the preceding week indicated might be possible. Instead of making further progress the merchants recorded a loss almost two-thirds as large as the gain made the week before.

This loss, which was 2,040 tons, was more than offset by the increase of 2,900 tons at the furnace plants, hence the net result was an increase of 860 tons in the regional total, bringing it up to 50,430 tons. This figure is close to the level that has been maintained for seven consecutive weeks without very great change at any time except, as noted, that the merchants have had the habit of swelling output one week and curtailing it the next.

This practice has been a feature of almost every period of depression and has been made necessary in order to keep within the market requirements. With an inactive spot market and small demand any cutting down of requisitions on contracts leaves more coke on hand than can be quickly absorbed. As a means of avoiding such accumulations the only expedient to which the merchants have had to resort has been to blow out the next succeeding week. This course gives an up and down direction to the production curve even when the trend is one general direction, ascending or descending as the case may be.

The reduction in merchant tonnage last week is, therefore, not unusual. The firing up of 50 ovens at a plant of the H. C. Frick Coke Company, and the loading out of a little stock coke by that interest, does have some significance. Reduction in the number of ovens in blast at furnace plants has been taking place almost every week since that ended April 15. For several weeks no ovens were blown out but not until last week has there been occasion to change the course by blowing in. True, the number placed in operation was insignificant as compared to the whole number available, but the mere fact that ovens at all were lighted up is taken as an indication that a halt in the curtailment program has not only been made but that the next step will be in the direction of a gradually but perhaps slow enlargement of production facilities.

It is still problematical as to what will transpire with respect to merchant production. While it may take on proportionately small increases during the next few weeks the greater probabilities are that it will hold pretty close to the recent average. Contrasts for fourth quarter are being made for furnace coke and others are progressing toward early closing, but the end of the third quarter is more than 30 days ahead, hence shipments on the new contracts will not begin for at least four weeks. There is a possibility that the volume of demand for heating coke may grow larger meantime and call for more ovens to be placed in blast. Such an increase, if made is likely to be comparatively slight. Foundry coke is rather dull without very marked or plainly visible indications that it will take on activity for some time yet.

Summarizing, it might be said that while there is encouragement in the situation it would be unwise to indulge too sanguine expectations about improvement in the coke trade until conditions in pig-iron manufacture furnish a more substantial basis than at present exists.

The estimated production of coke during the week ended Saturday, August 23, was 50,430 tons, divided between the two districts as follows: Connellsville, 18,330, an increase of 2,420 tons. Lower Connellsville, 31,100, a decrease of 1,560 tons, or a net increase of 860 tons as compared with a net increase of 3,300 tons during the preceding week.

By interests the production was: Furnace, 18,200, a gain of 2,900 tons; merchant, 31,230, a loss of 2,040 tons as compared with gains of 100 and 2,200 tons respectively during the week ended August 16.

The addition of 50 ovens at Hecla No. 3 plant of the H. C. Frick Coke Company was the only change at furnace plants. There were scattering additions and subtractions at the merchant plants totaling 21 ovens each, without affecting the total number in blast.

Production by the merchant and furnace interests and the total compared with the corresponding week in 1923 is shown herewith:

Week.	Month.	Furnace.	Merchant.	Total.
Jan. 6.	73,910	118,200	186,810	217,820

AMALGAMATION OF COAL INTERESTS IS MEASURE OF DEFENSE

The trend of the times is toward consolidation as a means of effecting economy and assuring efficiency. This is forcibly demonstrated by the highly successful operations of the non-unionist but capable Van Swerlengen of Cleveland, in their manipulation of railroad securities, says The Chicago Black Diamond. Starting with one and only a short time ago they have effected a series of purchases and consolidations until they now control perhaps the greatest railroad mileage ever brought under one control. Six or seven comparatively small lines, each existing on precarious existence under arduous competitive conditions, have been welded into a comprehensive system giving excellent service to a vast territory and earning a respectable return on the combined investment.

The mere union of these various roads has by no means accomplished this result. It has taken intelligent management in the coordination of effort and the powerful personality of natural born executives. This has been furnished by the gentlemen who have brought about the several financial transactions necessary. That such can be done with railroads has, however, now become a proven fact, and the force of this example will undoubtedly soon be felt in other industries; and particularly in that of producing bituminous coal.

This country contains some 40 or 50 major bituminous coal producing districts. There is no economic justification for the existence of so many of these 50 mining companies in each district, each with its expensive management charges, its independent sales organization and its own peculiar method of producing coal. With only 20 or 30 particular centers of production in each of the nation's great coal fields, there is no real reason for the existence of two, three or even four hundred small and distribution offices in each one. One or two distributors for each kind of coal could be wholly efficient and could eliminate truly vast sums of sales expense. The coal industry today is in dire financial straits. Yet, in the midst of its difficulties, it is the most prodigal of all industries. An example was recently furnished by a retail coal dealer who received calls in one day from 18 coal salesmen offering him a total of five kinds of coal.

This condition is not going to continue forever. In the recent past when "coal was money" it made but little difference how much it cost to sell, for that cost was simply loaded on to the selling price and passed on to the consumer. But such times will never come again. It will be a long time before the country will be able to consume our potential production capacity. Some means must be found, in the interest of common sense, to retire a portion of that capacity and consolidation seems the only feasible way out. Fairly important moves in this direction have already been made, particularly in Illinois and West Virginia, and others are reported in process of development in Ohio and Indiana. Every one should be welcomed by the industry as each new amalgamation of interests means a lowering of the general overhead and a consequent reduction of the general waste by just that much.

Frick Company to Improve River Harbors

The H. C. Frick Coke Company has requested permission to make repairs and build an addition to its harbor at the Palmer mine on the Monongahela river, below Gates. A similar permit is requested for the Gates mine. The proposed work at the Palmer mine consists of the construction of three new cribs and two rows of piling. The work at the Gates mine will consist of the reconstruction of ice breakers and the increasing in height of three piers and the addition and repairs to the existing trestle. The object of the proposed work is to prevent the washing away of barges during the high waters.

The Sharon Coke Company has requested a federal permit to erect a new breakwater crib and a new mooring crib at its mine on the right bank of the Monongahela river, four miles below Gates Landing.

Anything for Sale? The last of the union services will be held at the Reformed Church next Sunday evening. It will be a communion service.

Importance of Coke

In Furnace Improvement

In trading of the improvements in

furnace practice and increase in out-

put, the American Metal Market

makes the following reference to the

part played by Connellsville coke:

"The great Connellsville coke-

ing by your it was being used up. As a

matter of fact, almost all of what

20 years ago was considered the real

genuine, standard Connellsville coke

has been used up, but the region con-

tinues to produce coke, coke which

proves plenty good enough for present

day furnace practice. Also, the

by-product process has come in,

making good coke out of coal that

would not have been looked at, for

beachy coking purposes, 20 years

ago."

Merger of Smokeless

Coal Mines Proposed

Among the rumors in circulation

with respect to additional mergers

of bituminous coal mines is one of

a pending combination of producing

interests in the Touchstones and New

River fields in West Va.

Five or six of the largest com-

panies are mentioned in this connec-

tion, and if the deal goes through on

the basis talked of it will be the most

important merger of bituminous op-

erators since the formation of the

Pittsburgh Coal Company and the

Monongahela River Consolidated Coal

& Coke Company in 1899.

Weekday is a pleasure with an Aeroball Washer. Sold by Edward Baer, General Hardware.—Advertisement.

Miss Margaret Conway of Pittsburgh will return to her home Sunday morning. She is the guest of Mr. and Mrs. C. J. Ellis.

Rudolph Ralston, purchasing agent for the Capstan Glass Company, returned to his duties Monday after a two weeks' vacation.

Mr. and Mrs. E. P. Poole and daughter, Mary Jane, of Baltimore, Md., who have been visiting with Mr. and Mrs. Harry Dull, returned home yesterday. They were accompanied by Miss Annette Dull, who expects to spend Labor Day in Baltimore.

Mr. and Mrs. Cataldo Corrado, who were married yesterday morning at St. Rita's Roman Catholic Church, left last evening for New York City where they will spend a two weeks' honeymoon. Upon their return they will make their home at York avenue.

Mr. and Mrs. W. S. Lincoln and baby, Windolyn, are spending the day in Pittsburgh.

Miss Jessie Harris spent yesterday afternoon visiting Mr. and Mrs. F. H. Shultz in Greensburg.

Mrs. Helen B. Smith, son, Joseph H. Smith, Jr., and daughter, Mabel Louisa, returned home yesterday after a visit to Belle Vernon. Misses Violetta Jane and Sarah Cook Smith returned home yesterday from the Scottsdale Presbyterian Camp at Hutch Yards, near Champion.

Mrs. Harry Vanstone went to Markleton today to remain over Sunday with relatives.

Bobby, son of Mr. and Mrs. F. H. Curran of West Crawford avenue, who has been quite ill, is improved.

Miss Anna Ruschko and Miss Catherine and Elizabeth Honjoky attended the dance at Dawson Driving Park Tuesday evening.

Mr. and Mrs. Roy B. Otto and daughter, Mary Lou, and Mrs. J. P. Butts were guests at a corn roast at Camp Mount Washington, near Farmington, Tuesday night. Mr. and Mrs. Benton Boyd and children are members of the camp, which also includes Uniontown people.

15,000 Veterans Of 80th Division in Annual Reunion

By United Press.

PITTSBURGH, Aug. 25.—The 15,000 veterans of the 80th Division spent today in happy reunion, raising memories of war with a gay round of entertainment. Major General Adolph Cronkite, president of the 80th Division Veterans' Association, arrived this morning after a long stay at the station by a reception committee of former comrades.

A banquet in the Fort Pitt Hotel tonight will climax the day's program which includes a motor ride and a boat trip down the Ohio River.

Speakers at the banquet will include General Cronkite and Lieutenant Schell, blinded in action.

The parade probably will be held Saturday morning and the reunion will come to a close Sunday with memorial services for the war dead.

Home From Canada.

William O'Connor and Ralph Blier of Scottsdale returned to their homes yesterday after a two weeks' vacation in the various interesting points in Canada.

WHITE LILY
Your Protection Mark on
Choice Hams and Bacon, and
other Meat Products

Try 'em, you'll find 'em DIFFERENT

White Lily Ham Sandwiches

THERE is no more delicious article of food than a good ham sandwich—for home lunches or outdoor picnics. And there is no better ham than White Lily.

The uniform quality of White Lily Hams and Bacon is something to be relied upon. You don't get a good ham today and a poor one next week—because White Lily Hams are perfect and as nearly the same as we can make them from choice, thin-skinned little porkers, properly cured and thoroughly smoked in fragrant hickory smoke—the process is absolutely uniform and the Hams are too.

A whole White Lily Ham will provide meat for the average family for a week—usually delicious and satisfying, baked, boiled or fried—and needs no parboiling. U. S. Government inspectors—be sure that your dealer supplies White Lily.

GUARANTEED BY THE DUNLEVY-FRANKLIN COMPANY, PITTSBURGH TO BE MADE FROM PRIME YOUNG PORKERS LESS THAN ONE YEAR OLD

MOTHERS AND THEIR CHILDREN

An Excellent Bean Bag.

One Mother Says:

The popular game of bean bag is a splendid one for very young children, but I have found that the bags can be more easily caught by tiny hands made by the following pattern. Take a pretty piece of satin, denim or other strong material. Cut two six-inch circles and sew them together with a 1-4 inch seam, turn out from the center a 1-2 inch circle and overhand the opening with close stitches of silk thread.

Grim Reaper

MRS. ELIZABETH STEWART.

Mrs. Elizabeth Stewart, 72 years old, died Monday at her home, 11 South Brownsville where she lived for many years. She was the widow of George L. Stewart. Mrs. Stewart had been ill for the last three months, suffering from a complication of diseases. She is survived by the following children: Howard J. Stewart of South Brownsville, Miss Green of Woodland, Pa., and Mrs. Hazel Stewart at home, Mrs. H. M. Campbell, also of Woodland. Two sisters, Mrs. Jennie Mitchell of South Brownsville, and Miss Laura Snider of Pittsburgh, also survive.

Mrs. Stewart was a member of the United Presbyterian Church. Funeral services will be conducted Friday afternoon at 2 o'clock at her late home in South Brownsville.

MRS. VALENTINE PIECZYNSKE.

The funeral service for Mrs. Valentine Pieczynska of Emerson, held Monday at St. Joseph's Church was largely attended and was marked by the many flowers sent by friends and relatives. They filled the room at the home where the casket lay. Burial was made in St. Joseph's Cemetery. Miss Margaret Fowler of Dunbar cared for Mrs. Pieczynska during her last illness.

Wheeler Will Try to Win New England

By United Press.

WASHINGTON, Aug. 25.—Burton K. Wheeler as chief campaigner for the League of Women Voters Independent ticket will start a drive next week against President Coolidge in an effort to take away his home New England States. The decision to center the Independent attack around Mr. Coolidge, rather than the Democratic candidate, John W. Davis, was reached after a series of conferences between LaFollette and Wheeler.

Davis' candidacy is not formidable said Wheeler, in discussing his plans. He will start the drive Monday in a speech on the Boston common.

No Police Court.

There was no police court this morning, no arrests being made over night.

Things to Know Before Baby Comes

YOU may learn the probable date of baby's birth. What you should have and what baby needs. These and many other important things are fully explained in a wonderful booklet sent free to all expectant mothers.

This booklet also tells when and how to rub preparation which relieves the muscles and prepares the way for a favorable period during pregnancy and for a more natural delivery at childbirth. "Mother's Friend" saved my life," wrote one enthusiastic mother. "I was sick and over fat three or four times, and many more, in the booklet which you will receive."

"Mother's Friend" has been used by three generations of expectant mothers. Get a bottle today and enjoy the wonderful relief "Mother's Friend" will give you!

Labor Federation and LaFollette Far Apart On Many Vital Issues

Continued from Page One.

to the people of America. It was built to work and it does work. The Supreme Court, wiser than platform builders, found a way to allow it to live. It was good strategy, too, for it saved the government the humiliation of an unenforceable decree.

"Henry Ford, in a national advertising campaign, is frankly telling all America of his great combination of production units—a horizontal trust, including mines, forests, mills, railroads, smelters, ship lines and factories. Here is a machine which came into being in response to a national demand. It is a wonderful economic machine for economical production. We know this and we are doubtful advertising the explanation of its sound merits in order to build up a public understanding that will be too wise to attack it destructively."

"Whatever platform builders may say, it is too late in the economic day to go out with a boom to sweep back the tide. The tide was raised when steam power was harnessed to machine pulleys, accelerated when Ben Franklin flew his kite into electricity and fame, and given irresistible force when the modern motor system stood forth in full flower. On this tide we go into better things, or in it we go down to destruction."

"We cannot turn back the tide but we can ride it."

The proper sphere of government in helping to build the nation is to find and furnish information, to get at and make known the facts, to encourage and insist upon development within industry, of machinery which will take from invested wealth its distasteful control over policies of production, employment and public relations. There is a normal course which must be pursued, just as there always is where life and its perpetuation are concerned. The government may be helpful, but it cannot take the task, without spoiling the whole effort.

"The American labor movement will resist at all times every effort at governmental coercion, every effort of government bluntness to go counter to the natural and evolutionary forces that are at work when life is being and its sustenance. Labor is concerned with life, while government too often sees only formulae."

"In this issue there is bound up the whole contest between governmentalism and individual and group freedom, between free industry and state socialism. Labor is for freedom, for the normal, rational things—for the utmost and fullest for life and life forces. Let politicians give heed to these thoughts."

Fahy, Postal Sleuth, Believed to Have Bulk Of \$2,000,000 Loot

By United Press.

CHICAGO, Aug. 25.—While William F. Fahy, expert sleuth of the Post-office Department, rested in the Kane county jail on charges of being the head of a gang which carried off the \$2,000,000 mail robbery at Dondout, Ill., last June, apparently making no effort to obtain bail, secret service men today renewed their efforts to discover the whereabouts of the post-office fugitive. Fahy and James Murray, a Chicago underworld character who is also under arrest, are believed to have taken most of the money. A search for safe deposit boxes in Fahy's name proved futile. The only box found contained nothing more than insurance policy and a few personal documents.

Local Golfers Nosed Out by Monongahela

Golfers of the Pleasant Valley Country Club lost their second inter-club match with the Monongahela City players, staged here yesterday afternoon. The visitors scored 53 points to 23 for the locals. It was a much better score for the Pleasant Valley group than was recorded in the first meeting, however.

Following the play a dinner for the visitors and members of the Pleasant Valley Club was served. More than 100 persons attended. The next tournament on local grounds will be on September 10 when Spemeyer golfers will be here for a return match.

At the Theatres

The Paramount

"PURE GRIT"—Showing today at the Paramount, featuring Roy Stewart in the stellar role.

Stewart, playing the role of a Texas ranger, had staged a fight the day before with Jere Austin, playing an escaped convict in the picture, and Ross had told the movie maker: "It's real."

Both men top the six foot mark and each weighs around two hundred pounds. The hero was supposed to win and win Stewart did, but not until the encounter had almost wrecked the table and both men had given and received many hard wallop.

When Austin appeared on the lot a few minutes after Stewart arrived, it was noted that he limped in both legs. But then, he had been knocked across a table and his shins were skinned.

The picture, "Pure Grit," is an adaptation of "The Texas Ranger," William MacLeod Raine's famous novel of the Southwestern cattle country.

Others in the cast are Luther Ralston, Verno Winter and Jack Meyer.

Friday and Saturday, "The Hellion" will be shown.

The Soisson

"THE TRUTH ABOUT WIVES," provides splendid entertainment today at the Soisson. Betty Blythe is seen in the stellar role.

"The Truth About Wives" shows how wives live—how they love and suffer, mostly in silence, until, perhaps, some catastrophe seemingly wrecks their lives—but in reality rights their lives. The picture tells the story of a girl who finds herself, as the result of her mother's wish, married to a man whose claim to her was that his social position was on a level with her own. Meanwhile, in the background, hovered a millionaire who coveted her, and another man who truly loved her. These people, pulled by fate, became mixed up in a too-human mess, which led to tragedy before happiness came.

It is, perhaps, the old story of marry in haste and repent at leisure. But it is freshly told, and with the beauty of Miss Blythe, actress as the most pleasant way in the world in which a disagreeable truth can be set forth. After you have watched Miss Blythe for a while, you could be convinced that if she said black was white, while it must be, no other way, at all. This picture is the story of a girl who is highly emotional, a picture as "The Truth About Wives"—that there is something fascinating in the tragedy unfolded, and the hearts broken.

Friday and Saturday "Pal O' Mine" will be shown.

The Orpheum

"LITTLE ROBINSON CRUSOE," with Jackie Coogan, popular child actor, in the leading role, opened today at the Orpheum for a three-day attraction.

The story opens as the lad is being made ready for a long journey to Australia where he is to be cared for by a sister of his mother. The voyage is abruptly ended—in mid-ocean. The ship is wrecked in a typhoon and all hands on board except "Little Mickey Hogan," are drowned. There the similarity to the "Robinson Crusoe" story begins. The boy saves the ship's cat and together they are cast up on an island in the South Seas.

But, unlike the Robinson Crusoe island, this place is inhabited—unpleasantly so. Mickey no sooner reconciles himself to a life on a deserted island than the cannibals and the thrills and the adventures. What happens then must be soon to be appreciated, and nothing that a reviewer could write would adequately describe the events from the moment Mickey is discovered by the savages to the moment of his escape from a vicious death at the hands of the tribe's chief, Marmite.

The plot is not too elaborate nor complicated and it revolves around one character—that impersonated by Jackie. It is a perfect combination for Jackie—thrill follows thrill only to be followed by chuckles, more thrills and a dash or two of pathos—being sure, of course, that a happy ending closes the story. Indeed, it is the happiest ending that was ever provided for Jackie.

Monday, Tuesday and Wednesday of next week Gloria Swanson will be seen in "A Society Scandal."

HEAL SKIN DISEASES

Apply Zemo, Clean, Penetrating, Antiseptic Liquid

It is unnecessary for you to suffer with Eczema, Itchiness, Ringworm, Rashes and similar skin troubles. Capstan Clinches Inter-Club Series With Stewart; Holds Four Victories in Six Games

"Jeff" Moorman Once More Proves Too Much for Visitors; Score, 10-7.

HOME RUNS PLENTIFUL

The Capstan Independents clinched the inter-town series from Stewart last evening by outwitting the Westmoreland county nine by a 10 to 7 score in a six inning combat.

"Jeff" Moorman won his third game from the Stewart club. He has been defeated twice by the same outfit. The glass blowers made it the fourth game in six starts and even though the Stewart nine takes the next one to be played on September 4, it will be one game shy of the tying mark in the series.

The Stewart management sent Gately to shoot his southpaw slants against the Blagvillers but he was hit hard by the local lads. In the first frame, four runs were garnered and another was sent across in the second. In the fourth inning, he faced five men and was relieved by Albright who made a short stay, pitching only to two men. Brinker, the southpaw ace was then sent in and finished the game. Five runs were tallied by the glass blowers in the fourth.

The visitors collected three hits and coupled with three errors in the initial frame sent a trio of runs across. Four tallies were chalked up in the fourth on three hits, one error and a base on balls.

Chip Francis, the "old war horse" of baseball, placed a bang-up yesterday. He eluded out two triples and a double. "Dorcy" Jones, playing his first game since the injury to his eye, welcomed Gately with a home run. George Clawson, the colossus of clout, hit his 22nd home run in the first frame with two of the pucks. Moorman, a pitcher, got a homer in the fourth frame. None were on the paths at the time.

The glass blowers finally came back after losing three in one week. The next game for the locals will be Saturday at Uniontown when they clash with the Crucible nine. A heavy practice session is billed for Friday evening.

Scottsdale nosed out Uniontown Elks yesterday, 4-3. Andy Gettle scored the winning run in the tenth inning on a squeeze play. Both he and Gettle were credited with materially aiding in the victory by sensational fielding.

Jeannette won over West Newton yesterday 10-7 in five innings. The game was then called on account of darkness.

Is Own Press Agent

A year ago baseball manager didn't know that George Earl Miltard was a baseball pitcher so he sent each and every one of the major league press agents literature concerning his ability. President William Veck of the Chicago Cubs became interested and had the Bocham (Texas) team give the youngster a trial. His work was good and Miltard is now a regular Cub pitcher.

STAR JUNCTION IS VICTOR AGAIN; WIN OVER FAIRHOPE NINE

Star Junction added another victory to its series when it met and defeated the Fairhope Independents of Bella Vernon Tuesday evening at Star Junction by a score of 8 to 1.

The visitors were only able to tally in the seventh.

Zackel pitched a fine game for the winners. He struck out nine men of the Fairhope team. Rholand was knocked out of the box early in the contest. Davis exchanging places with him at first base.

The Tigers have arranged a championship series with the Perryopolis team, the first game to be played at Star Junction on Saturday. The second game will be played at Perryopolis as a Labor Day contest. The series will be a five-game one, with a purse of \$100 for the winner.

Time of game—2:00.
Umpire—Yenchick.

Phates Lose by Point

The Pittsburgh Pirates, allowing the Phillies to get in two good innings early in the game, lost again yesterday by a score of 7-4. Big Jeff Pfeffer was knocked from the box and was supplanted by "Babe" Adams in the third. The Buc favorite pitched a good game until he was replaced by a pinch hitter in the seventh. While in the game he permitted three scattered hits and held the opponents fruitless.

The New York Giants were idle yesterday, but added a half game to their lead, it resulting from the defeat of the Pirates.

New York Americans divided a double bill with Cleveland yesterday, the Tigers doing likewise with Boston. At the same time the Senators lost to St. Louis, 2-6, in 11 innings.

Mason Motor Co.

GLASS BLOWERS WILL PLAY ELIMINATION; MAY MEET UNIONTOWN

One of the best games of the season is expected to be staged at Uniontown Saturday when the crack Crucible nine clashes with the Capstan Independents in an elimination tilt for the right to combat with the Uniontown Elks. Each of the teams has been tearing up things in their respective communities and the game will serve as an inter-section series conflict. Alexander, the ace of the Capstan nine, will work against Harkins, formerly Sackville Stogies hurler.

The Greene county management will present an extra-strong lineup. Maraney, tried out with the Uniontown Elks, will be on the hot corner, third base; Albaker, outfielder for the P. J. Sullivan nine of Pittsburgh, will roam in the center field; Vernasco, of the Sackville Stogies, will play short; Havana, formerly with Sackville Stogies and later with the Uniontown Elks, will work behind the bat and at clean-up position; Minor of Waynesburg will play at the initial sack; Blackburn of Mather will guard the right portion of the outer garden; Schiltbauer, formerly with Mather and Waynesburg, will play at the keystone sack; Krause, a Crucible man will find himself in left field.

Stoll, a second Crucible man, will act as utility man for the keystone sack.

The probable line-up for the glass blowers is as follows: "Pep" Francis, right field; "Clip" Francis, middle left; Dushaw, short; George Clawson, left; Jones, third; Davis, catching; Rakston, first; Reilly, second; Alexander, pitching.

The game will be a preliminary to the Uniontown Elks clash with the Ambridge Elks. The first game will be played at 2 o'clock, the second beginning immediately afterwards. A large delegation is expected to go from Conneautville and vicinity to root for the Capstanites.

Shipments to Lake Recovered Somewhat

Shipments of bituminous coal via the Lakes recovered somewhat in the week ended August 17, but failed to reach the level of the week of August 3. Reports show that dumpings over the lower Lake Erie piers totaled \$15,243 net tons, an increase of 21,148 tons. Of the total dumpings, 773,603 tons were cargo coal and 41,661 tons were vessel fuel. In the corresponding week a year ago nearly a million tons were dumped.

Cumulative dumpings of cargo coal during the present season to date stand at 11,350,593 tons, a decrease of 33 per cent from the corresponding figure for 1923, and of 24 per cent from that for 1921.

SCOTSDALE GIRL NURSING CHIEF FOR KENTUCKY

Miss Margaret East Elevated
to Position of Much
Responsibility.

NEW SCHOOL AT EVERSON

SCOTSDALE, Aug. 28.—Miss Margaret East, daughter of Mrs. Jennie East, has been appointed director of public health nursing of the state of Kentucky and will be located in Louisville. Miss East will succeed Miss Marion Williamson, who resigned several months ago. Due to her former position, director of Red Cross nursing, Miss East is acquainted with nursing problems of the state. She is a graduate of the Children's Hospital of Washington, D. C., and has taken a number of post-graduate courses. The post is one of the most important in the state and was established in 1910.

Building Parochial School.
The new St. Joseph's Parochial School, which is being built in Fairview street, will be completed in October. The building is of brick and is drop-proof. On the first floor are assembly rooms and on the second floor eight school rooms. The money has been raised and the work is being done under the direction of Father Shilbick.

Everton Schools Open Sep.
The Everton public schools will open Tuesday, September 2. William McLaughlin will be principal. The other teachers on the staff are Margaret Eckman, Helen Winsley and Malinda Kline.

W. C. T. U. Meetings.
Mrs. F. J. Marshall will entertain the W. C. T. U. at her home Tuesday evening.

At Trimbath Funerals.

Mrs. Mary Williams has returned from Connellville where she spent 10 days with her sister, Mrs. L. S. Michael. During her stay with Mrs. Michael, two of her brothers, J. A. Trimbath of Hopwood and J. Warren Trimbath of Uniontown, died.

J. A. Trimbath died Friday morning from a lingering illness and the funeral services were held Sunday afternoon at the home with interment in the Oak Grove Cemetery, Uniontown. J. Warren died in a Pittsburgh hospital Saturday morning and the funeral service was held Saturday, with interment in Oak Grove Cemetery. Mr. and Mrs. G. W. Gordon and son, Charles, of this place attended the funerals.

Personal News.

Miss Catherine Smith has returned home after spending a week with

Miss Helen Davis.

Miss Ruth Still has returned to her home after visiting friends here and was accompanied home by Miss Nellie Neish.

Miss Helen Sisley has returned to her home at Youngstown, Ohio, after visiting with friends here.

Mr. and Mrs. Sawyer and family of Tyrone are visiting friends here.

Expansion of Trade Will Follow Election Of Coolidge President

Expansion of the present improved volume of steel business into volume demand, if President Coolidge is elected, is forecasted by J. A. Campbell, president of the Youngstown Sheet & Tube Company. He declares conditions are right.

"The improvement is due to a number of causes," says President Campbell. "Stocks had become low, and selling prices had been reduced to a low point. The repatriation question is apparently being solved, also the recent advance in agricultural prices has stimulated buying."

"This last is a striking illustration of the operation of the law of supply and demand. Expectation that wheat crops may be short has increased the market value of American crops \$1,250,000,000 and has done more to restore prosperity on the farms than all the special legislation proposed or adopted in a hundred years."

"Unless the unforeseen occurs business should improve slowly until the election. If that results in the continuance of the present national policies, improvement would be rapid, as all other fundamental conditions are favorable."

How the Motor Industry Set the Pace for Highway Building

Permanent
roads are a
good investment
—not an expense

The "horseless carriage" of yesterday is now being produced as the modern automobile at the rate of 4,000,000 a year. The total number of motor vehicles registered in the United States is over 16,000,000.

And every automobile produced today is a good automobile, economically serving business and recreation needs of people in every station of life.

But there is an obstacle standing in the way of its maximum service to owners.

For while the automobile industry made paved highways an economic necessity, the mileage of such roads is today years behind the requirements of modern traffic.

Happily motorists everywhere are becoming more and more wider paved highways.

And extensive experience has taught them that Concrete Highways are one of the best all-around investments they can make—an investment that pays big dividends.

As one of our 16,000,000 motorists you know better than anyone else the need for more and wider Concrete Roads. Start now to help your local officials provide them.

WOMAN WEAK DIZZY, FAINT

Found Relief in Taking Lydia E.
Pinkham's Vegetable Compound.
Always Recommends It.

Bridgeport, Connecticut.—"I was completely run-down, had headaches, dizzy, faint feelings and other troubles women often have. As I had taken Lydia E. Pinkham's Vegetable Compound before, my husband said to take it again. I have now taken Lydia E. Pinkham's Blood Medicine, the Liver Pills, and six boxes of Lydia E. Pinkham's Vegetable Compound Tablets. I am feeling very good now and shall continue taking them for a while. I have been telling my cousin about the medicine and she wants to take it, too. I always recommend it."—Mrs. Henry C. Smith, R.F.D. No. 3, Box 6, Bridgeport, Conn.

Lydia E. Pinkham's Vegetable Compound is a splendid medicine for such conditions. It has in many cases relieved these symptoms by removing the cause of them. Mrs. Smith's experience is but one of many.

In a recent country-wide canvass of purchasers of Lydia E. Pinkham's Vegetable Compound, over 121,000 replies were received, and 88 per cent. reported they were benefited by its use. For sale by druggists everywhere.

Confluence

CONFLUENCE, Aug. 28.—Frank Wass went to Friendsville, Md., yesterday to visit friends.

Quite a number from here expect to attend the Old Fellows picnic at Kingswood next Saturday.

G. R. McDonald is able to walk over town now. He is improving nicely from his injuries.

Work on B. F. Brown's new dwelling in the Yengler addition is being pushed forward to completion.

The work on the state road between here and Uniontown is progressing very favorably.

Miss Elizabeth Butler, who has been visiting friends at Johnson Chapel for several weeks, has returned to her home in New York.

N. H. Crow and daughter, Ruth, have returned to their home in Bradock after a visit with friends here.

Mrs. Bill Zuffall, who was visiting friends here, has returned to her home in Connellville.

Mrs. Clara Puryear has returned to her home in Pittsburgh after a visit with Mr. and Mrs. John Reiber at Johnson Chapel.

B. F. Hanna of Rockwood was among the business visitors here yesterday.

Gain in Value of Iron Pipe.
According to the biennial census of manufacturers, 1923, the value of cast iron pipe and fittings and related products was \$92,974,084, an increase of 100 per cent over 1921.

SEPTEMBER 12 CHILDREN'S DAY AT DAWSON FAIR

Special to The Courier.

DAWSON, Aug. 28.—Friday, September 12, is children's day at the Dawson Fair. On that day all school children, grade and high school, from any point in Fayette county will be admitted to the fair free of charge. The school officials, in cooperation with the Dawson Fair Association, are making out a list of the tickets they will need and the tickets will be distributed by the school officials to the school children, directly. No added feature has been put on the program.

According to George G. Cochran, secretary, the children's day at the fair will be an annual event and will come on the last day of each annual exhibition. If the plans already in mind materialize, an excellent sports and miscellaneous program will be made out for the following annual fair. The program will be completed by the county school superintendent.

Kills Pesky Bed-Bugs P. D. Q.

Just think, a 30c box of P. D. Q. (Pesky Doodle Quicker), makes a quart, enough to kill a million bedbugs, roaches, fleas or moths and stops future generations by killing the eggs and does not injure the clothing. Liquid P. D. Q. is the bedbug's worst enemy. It is like bedbugs and as good a chance as a snowball in a justly famed heat report. Patent about free in every package of P. D. Q. to enable you to kill them and their eggs in the cracks. P. D. Q. can also be purchased in sealed bottles, double strength, liquid form.
